

EXTREME HEAVY DUTY

BONDS IN EXTREME TEMPERATURES (22°–120°F)

LN-907/LNP-907

Interior/Exterior

A super premium construction adhesive offering outstanding adhesion, durability & performance in extreme conditions

PRODUCT DESCRIPTION

LIQUID NAILS® Extreme Heavy Duty Construction Adhesive, LN-907, offers outstanding adhesion, durability and performance in extreme conditions, bonding in temperatures from 22°F to 120°F. All weather, all season performance helps get the job done right in any condition. Also features a durable plastic tube for outdoor storage all year round. Certified by UL Environment to meet the GREENGUARD GOLD Standard as a low emitting material.

PRODUCT ADVANTAGES

- Bonds in temperatures from 22°F to 120°F for all season performance
- Durable plastic tube for outdoor storage
- 200% stronger than fasteners alone
- VOC compliant
- Exceeds ASTM C-557

RECOMMENDED FOR

Use on a wide range of construction materials, including:

- Plywood
- Treated lumber
- Imitation stone (interior only)
- Ceiling tiles
- Waferboard
- Drywall
- 1/8" MDF paneling
- Cementboard
- Brick veneers (interior only)
- Tileboard
- Particleboard
- Foamboard

Subflooring: Extreme Heavy Duty Adhesive meets the requirements of the APA AFG-01 specification for subfloor installation.

NOT RECOMMENDED FOR

- Plastics
- Marble
- Vinyl
- Installing tileboard directly to studding, and wood or laminate flooring
- Ceramics
- Mirrors
- Granite

Please research all installation instructions and read entire label and Material Safety Data Sheet for safety, health & environmental information prior to use.
